

What Perspectives Do ICU Clinicians Have Regarding the Value of a Get to Know Me Board in Caring for ICU Patients?

STUDY DESIGN

- Get to Know Me board: personal patient profile designed to bring the patient from anonymity
- Qualitative study design
- Stakeholders from multiprofessional teams in ICU settings at a large US quaternary care center

RESULTS

Highlighted Domain Themes:

Get to Know Me Board

The Get to Know Me board was considered important in fostering humanized care in the ICU by diverse members of an interprofessional ICU team, helping to facilitate communication, establish family connection, and guide care.
